From the main "company" menu, we get a wide variety of additional reports:
I have selected Hoover's Company and Industry Reports and after clicking "Search" will allow us to select specific Hoover's reports.

Like the other reports, Hoover's in-depth gives basic information such as the number of employees, the company's ticker number, its rank in the Fortune 500, etc. It also supplies important SIC Codes and NAICS Codes that locate your company within an industry.
The industry your company belongs in will determine which reports to access with Mergent Online and other tools. The NAICS and SIC codes will be an integral part of your research.
