Requesting an Item from another USMAI Library

There are two different ways to request an item from another University System of Maryland and Affiliated Institutions (USMAI) library. The first is searching OneSearch and the other is searching CatalogUSMAI.

**Ordering an item from another USMAI Library after Searching OneSearch**

1. On the library’s home page is the option to search via OneSearch
2. Type in your search term(s) and select Search.

3. You will now have a results page that will show in a new screen.
4. For this example, we have found a book that is only available at another USMAI library (Shady Grove).

5. To request the book be sent to you from this other library, you need to select the link that says Request Item.
6. After you select this link, you will receive a box that asks you to select your campus. Since you are a Frostburg State University student, select Frostburg State University.

The Due Date will tell you if the item is already checked out.

On Shelf – book is available

Date listed – book is already checked out
7. You will then be asked to enter your 14-digit Barcode and your last name.
8. Once you enter your barcode and last name, select Log In.
9. The next screen that comes up will ask you where you want the item delivered.

10. Select Frostburg State University. Then select Send. You should receive the item(s) within 3-5 business days. You will receive an e-mail when the item arrives.

**Ordering an item from another USMAI Library after Searching CatalogUSMAI**

1. You can access CatalogUSMAI from the library’s home page.

4. Once you have entered your search term(s), click on the Search Button.
5. You now have a results screen.
6. For this example, we found a book that is available at several other libraries, but not here at FSU.

7. To find out more about the book and to be able to order the book, click on the title of the book.

8. Now select the link under Availability on the line next to All Locations
9. This will bring you to the screen that allows you to request the item.
10. Click on the Request Button.
